All information in this brochure is up to date at the time of printing. This brochure – depending on its version – gives an initial insight into this area of expertise, and suggests selected medical diagnosis and treatment options. Even though the details are scientifically substantiated, we do not claim that all information is complete or that all schools of thought are represented. All contents in this brochure or its online version, including extracts, in particular those about diagnostics and treatment options (texts, images, graphs, etc.), are understood as non-binding support for the treatment that must be chosen by a physician or specialist. This brochure is no substitute for the necessary personal medical history and its overall assessment by a physician / a professionally trained and qualified specialist, considering ongoing treatment, if applicable. The contents in this brochure are exclusively designed for medical specialist staff, not for anyone unrelated to the subject, in particular not for patients. If in doubt, please seek additional advice from a specialist. We are also happy to help.

SecuTec® Genu Flex

THE FIRST FLEXIBLE HARD-FRAME ORTHOSIS BY BAUERFEIND

“Finally, a ‘flexible’ orthosis that conforms to the standards of modern medicine as well as the anatomic and individual requirements of the patient.”

Christian Teusch
Specialist in orthopedics and trauma surgery

SecuTec® Genu Flex

THERAPEUTIC BENEFITS

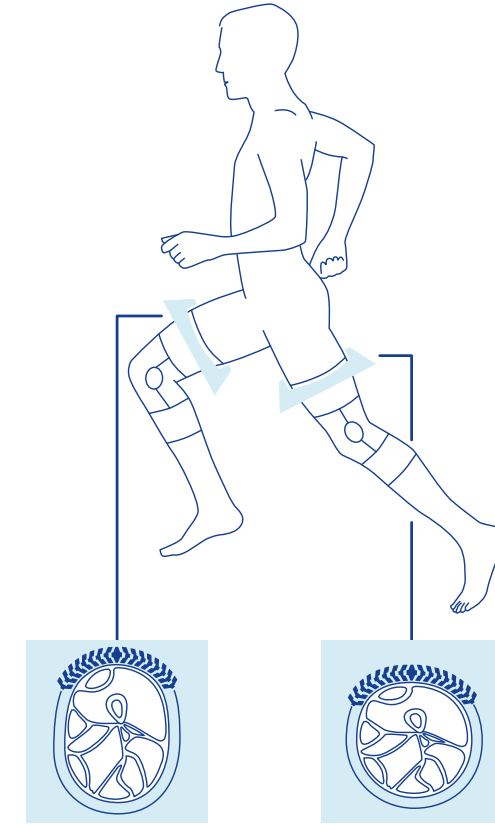

RELIABLE PROTECTION

... due to the semi-flexible frame that adapts to the leg's shape during movement.

GIVES THE MUSCLES
MAXIMUM FREEDOM
OF MOVEMENT

▶ Flexible in the direction of movement and
▶ tension-stable in the direction of therapeutic action.

The flexible Flex-Links perfectly adapt to movement, remaining securely in position on the leg.

... with the joint limitable in extension, flexion and immobilization.

→ adjustable without tools

CUSTOMIZED FIT

... through exact adjustment of the circumference by adding or removing Flex-Links.

→ adjustable over the course of treatment

... with extendible hinge legs.

→ targeted treatment

HIGH LEVEL OF ACCEPTANCE

... thanks to the flat design and the thin, soft cushioning.
